CALCULATION RESULTS

To calculate a return from data entry, click the **Calculate** button from the **Data Entry Menu** or from the data entry toolbar on any entry screen (or press CTRL+C).

The **Calculation Results** window displays the taxpayer's total income, taxable income, total tax refund amount, balance due, payment method, and the e-file eligibility of the return.

The **EF Status** column displays a green check mark for each return that is eligible for e-file. A red "X" indicates the return is not eligible for e-file and has an EF Message.

EF Messages are displayed in the center of the **Calculation Results** window. Review EF Messages by right-clicking to read the full description of the problem. If an EF Message is blue, double-click to open the data entry screen that contains the error. All identified issues must be corrected in order for a return to be e-filed.
